Experience

Teksky

Oct 2024 - Present

Cyber Security intern

Khammam

- Conducted vulnerability assessments, penetration testing, risk analysis, and implemented security protocols to protect sensitive data and systems.
- Monitored and analyzed network traffic, identifying and mitigating potential security threats using various tools and techniques.

X-YUG Technologies Pvt Ltd.

May 2024 - Aug 2024

Mean Stack intern

Hyderabad, Prakash Nagar

- Developed interactive and responsive websites with RESTful APIs and employed reactive programming techniques.
- Utilized HTML, Bootstrap CSS, Angular Material and SASS to create designs ensuring compatibility across devices.
- Implemented features with Angular, TypeScript, Express, MongoDB, AWS, and Node.js optimized website performance on goldcentral and superadmin websites.

Projects

Encryptor | Python, Cryptography, Serialisation

Feb 2025

- Developed a ransomware simulation using AES for file encryption and RSA for key exchange, requiring a private key for decryption. Demonstrated ransomware behavior to raise cybersecurity awareness.
- Utilized serialization to securely store and manage encryption keys for easy retrieval during decryption, simulating real-world ransomware behaviors.

Portofolio – Live | Html, Css, Java Script, React js

Aug 2024

- Developed a responsive portfolio using React with sections including Home, About Me, Services, Skills, Contact Me, Projects, and Qualifications. Designed a user-friendly interface that effectively showcases my expertise and projects.
- Integrated EmailJS for seamless email functionality and used React Icons to enhance visual appeal.
- Demonstrated strong proficiency in React and front-end development through this portfolio project.

Quiz Application | Java, Spring Boot, MySql, Hibernate, Spring data jpa, Postman

Dec 2023

- Crafted a robust quiz application using Spring Boot, Postman, Spring Data JPA with Hibernate, MySQL, and Lombok
- Leveraged Spring Boot for scalable development, ensuring reliability by integrating APIs and testing with Postman.
- Backend: Implemented seamless database interactions using Spring Data JPA with Hibernate and MySQL.
- Enhanced code conciseness and readability using Lombok

Skills

Programming: Python, Java, Type Script, JavaScript, Git/Github, SQL, VS code

Cyber Security: Burp Suit, Nmap, Wire Shark, Postman, Sql Map, Meta Sploit, Nessus, Jhon the ripper, dirbuster, spiderfoot, Hydra, Kali Linux, Windows server, Shell Scripting, Networking, Operating Systems, SAST

Certifications

- **Jr. Penetration Tester** by TryHackMe
- **Agile Methodology** by Cognizant
- **Java** by HackerRank
- **Python (MTA)** by Microsoft

Achievements

One of the top 8 percent in tryhackme.

Won first prize in vishesh 2k21 with my team for MREC-meet project.

Led IoT esSENSE Club as Technical Team member.

Education

Malla Reddy Engineering College

2020 – 2024

Bachelor of Technology in Computer Science and Engineering (Internet of Things)

Percentage achieved: 80
